I am elated to recommend **Mr. Kadasi Dhanunjay Kumar** for admission into Master's program in your esteemed university. I had taught subject like "**Transportation Engineering**". My association with him has given me an ample scope to assay his capabilities very closely. both academically and personally. He maintains a very good rapport with his instructors and fellow students.

He displays a natural capacity for independent thinking, organization of thoughts and presentation of details. His ability to learn things quickly and use them creatively makes him an outstanding student. He has been prominent in every task that he has conference and has the ability to express ideas in a lucid manner. He can carry out practical work independently and also extends good cooperation in teamwork. He has consistently maintained high level of academic performance right from his High School.

His knowledge of the fundamentals and analytical ability and effortless assimilation of concepts accompanied by his assiduous efforts are commendable. He is ambitious and career driven. He works hard to achieve his goals and is committed to his work. He is emotionally mature, confident and good-natured. As a student he was dedicated to his assignments given to him and finish them on time. Perserverance, sincerity and thirst for knowledge have always been be hallmark of his personality. In his third year, his ability to lead has been the hallmark of his character. I personally feel that his overall grade is not a true reflection of his scholastic aptitude and he is capable of much more.

In my opinion, he has a rich blend of creativity, temperament and discipline which are required for a person who decides to do research.

I strongly recommend him for the master's program in your esteemed University
